PRIDE

AssuredPartners takes an objective approach to determine how the use of captive insurance may benefit your company. We have a dedicated team of captive insurance professionals with experience using captive insurance in many industries, including: Contractors, Manufacturers, Distributors, Retailers, Truckers and Professional Service Firms. We understand and specialize in captives.

SERVICE OFFERINGS

AssuredPartners offers a free Captive Profit Calculator that analyzes your last 5 years premiums and claims and evaluates if you would have profited from a Captive solution. Member Owned Group Captive Insurance may include; Worker's Compensation, Business Automobile and General Liability insurance coverages. Captives are a perfect solution if your premiums are traditionally higher than your claims and you believe in your long term ability to manage losses. Unused claims funds, including investment income, are returned to the company or its owners. We also integrate member owned group captives with micro (also known as Enterprise Risk or 831b) captives.

WHY WE ARE DIFFERENT

“ The single greatest cost reduction initiative that we have implemented in our company’s history, coupled with an increase in the knowledge and control of our insurance programs. ”

– Chairman of the Board
National Distributor

AssuredPartners has exclusive access to the best, lowest cost, group captives in the Country as well as established relationships with the top captive consultants. We have more experience in placing clients in captives than our competitors and are the leaders in group captive business in our region.

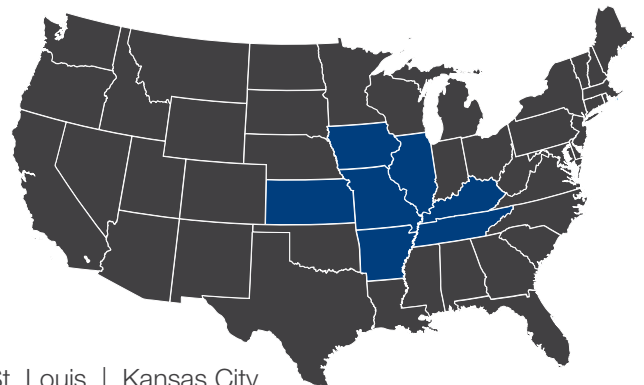

CASE STUDY

Faced with continually rising insurance premiums as they aggressively grew their business, a local construction firm needed innovative ideas for their risk management programs. AssuredPartners’ leading group captive practice provided an alternative risk financing solution moving our client from a guaranteed cost program to a group captive in less than 60 days. Since implementation four years ago, the client has realized premium savings of over \$200,000 and a return of dividends (unused claims funds) exceeding \$500,000.
